DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: page 8, line 22, '2C' should be changed to -2D--.

Appropriate correction is required.

Applicants should note the disposition of the parent application in the specification.

Claim Rejections - 35 USC § 112

Claims 16-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. How do these claims structurally limit the claims they depend upon?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4,5 are rejected under 35 U.S.C. 102(b) as being anticipated by either Browning or Kroger. Both patents show paper shredders having adjustable cutting mechanisms which is all that is needed to meet the claimed subject matter. Note that by feeding material into a particular shredder, the user is determining what type of cut is to be produced.

Allowable Subject Matter

Claims 2,3,6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 16-19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 10-15,20-32 are allowed.

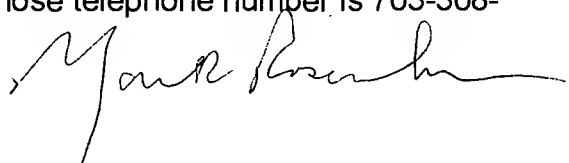

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
